

TV3000

Vegetable Cutter

Features:

- Body and inlet are constructed in AISI 430 stainless steel
- A safety device prevents blades from turning when the handle is lifted
- It is a multi-purpose appliance suitable for the cutting of fruits and vegetables into a wide variety of shapes and sizes, including the grating of cheese, dry bread, chocolate, nuts and the cutting, slicing or shredding of carrots, celery, potatoes, apples, turnips and beetroots
- Great for saving both time and effort
- Up to 300kg per hour output
- Dual loading
- Oval hopper dimensions: 155x75mm
- A wide range of discs available

Some examples of potential output in kg/hour:

- Dicing potatoes 10x10mm = 300kg
- Thin potato chips = 260kg
- Fruit salad cubes 8x8mm = 260kg
- Potato chips 2mm = 100kg
- Shredding carrots 2mm = 150kg
